THE NEW STAMP DUTIES .- On the first day of October, the new law in relation to stamp duties, under the act for Internal Revenue, went into operation. It is a most important law, justly observes the Pittsburg Dispotch, affecting every one dealing in bonds, mortgages, legal writs, bank checks, policies of insurance, custom house papers and for every stamp there is a specific price. These stamps will be supplied by the Postmaster, as well as by the Internal Revenue Collectors, at Government prices, in amounts not exceeding \$100. The law, however, will not be enforced until stamps

are provided. A law like this, affecting so many interests and going into every individual's business, will raise a great many questions difficult of solution upon the instant. Many of the questions cannot be resolved in advance, but must wait till they arise, for a roper official solution. The authornies at Washington, however, should as far as able immediately give such instructions to those appointed to administer the act, as will facilitate their operations and explain to the public when and how the law applies, and what instance it does not. Such instructions would be of general interest and information. The law requires the following articles to be stamped : For a bank check or a sight draft for an

mount exceeding twenty dollars, a two cent stamp will be required; for a promissory note, or draft (other than sight,) stamps of various amounts, from five cents upin an incorporated company, twenty-five cent stamp; a power of attorney, twentyfive cents; a passage ticket to a foreign port, fifty cents to one dollar; merchants and shippers have to pay duties of from ten | DANIEL MCHENRY, Esq , of Fishing. cents to one dollar on bills of lading, manidamage, entry of goods at custom house. &c.; for a protest of note, or marine protest the stamp duty is twenty five cents : on a deed of grant, from fifty cents upwards; a lease on protest, fifty cents to one dollar ; a policy of insurance on life or property, will have from twenty cents to one dollar added to its cost in the way of a stame; telegraph despatches are taxed from one to three cents each; bonds and mortgages have to be stamped according to their of will, or letter of administration, pays a stamp of fifty cents, upward, proportionate to the amount involved ; while an express company's or "common carrier's" receipt is of any kind whatsoever, without the same being duly stamped," and the instrument
